Vocational mobility in Europe

EREIVET – European regions enhancing internationalisation in vocational education and training

Boost international vocational skills and competences in trustful European partnerships
EREIVET – 15 partners from 12 European countries and regions foster quality in mobility

**Our objective**

We facilitate the acquisition and the use of international knowledge, skills and qualifications for personal development, employability and participation in the European labour market.

We are cooperating to develop a common strategy to enhance the quality and quantity of learning mobilities. We support teachers, trainers and stakeholders in

- building trustful partnerships
- implementing Europass instruments for transparency in classrooms and companies
- identifying learning outcomes for the branches: business, administration and services, electricians, social and health care
- following the ECVET-process

Based on the longlasting mobility experience of our partners in Europe this flyer gives you an example of the concept and organization of a learning mobility that leads to an added value for the individual as well as his company and training institution.

**Target group:**

Teachers, trainers, students, apprentices, stakeholders, who want to acquire international vocational competences

---

**International vocational competence**

- International basic qualifications
- International key competences
- Foreign language skills
- International professional skills
- Intercultural skills
- Intercultural disposition
- International activities in job, education and training

**Professional competence as pre-condition:**

- Professional skills
- Key competences (methods and social skills)
- Personal attributes
EREIVET – Quality in mobility
How to plan, organise and evaluate a mobility project for VET learners and staff

Building partnership/ assess candidate

Partner search, preparatory visits, Memorandum of Understanding Europass CV and language passport, motivation letter

Preparing mobility

Learning Agreement including Units of Learning Outcomes
